ABOUT OUR COMPANY
At MannKind Corporation, we focus on the discovery, development and commercialization of therapeutic products for patients with diseases such as diabetes and pulmonary arterial hypertension.

MannKind’s dry powder formulation technology is a versatile drug delivery platform that allows the pulmonary delivery of therapeutic agents by oral inhalation. Our approach can be used to deliver small molecule, peptide, or protein drugs currently requiring administration by injection.

MannKind is headquartered in Westlake Village, California, and has a state-of-the-art manufacturing facility in Danbury, Connecticut. The Company also employs field sales and medical representatives across the U.S.

For further information, visit www.mannkindcorp.com.

ABOUT OUR SCHOOL
The USC School of Pharmacy is the only private pharmacy school on a major health sciences campus, which includes the Keck School of Medicine, Keck Hospital of USC and the USC Norris Comprehensive Cancer Center and is immediately adjacent to the LAC+USC Medical Center, one of the largest public hospitals in the country. Ranked by US News and World Report as a top ten pharmacy school nationwide and #1 among private schools, the USC School of Pharmacy is recognized for its century-old reputation for innovation in pharmaceutical education, clinical practice and research. The School uniquely spans the entire spectrum of pharmaceutical development and clinical care - from drug discovery to regulatory approaches that promote safety and innovation, from delivery of patient care services to evaluating the impact of care on patient outcomes and costs. The School holds an essential leadership role in the safe, efficient, and optimal use of medication therapy that can save lives and improve the human condition.

ABOUT OUR FELLOWSHIP
At MannKind, fellows will gain exposure to the following areas within the pharmaceutical industry:

Medical Affairs: Collaborate with medical team to relay scientific information to internal and external stakeholders.

Regulatory Affairs/Safety: Ensure compliance with the FDA on all marketing and promotional products.

Clinical Development: Participate in the design, development, and implementation of ongoing Phase I-III clinical trials.

Elective Rotation: Fellow’s choice of an elective to be completed.

As an integral member of the medical and clinical teams, the fellow will be provided opportunities to develop skills for multiple functions within the biopharmaceutical industry based at MannKind Corporation’s headquarters in Westlake Village, California.
