**About us:** Gilead has pursued – and achieved – breakthroughs once thought impossible in medicine for more than three decades, with the goal of creating a healthier world for all people. Gilead was founded in 1987 in Foster City, California and has operations in more than 35 countries. We have grown to become one of the world’s largest biopharmaceutical companies, with 12,000 employees across six continents.

Gilead has helped transform care for people living with HIV, developing the world’s first HIV single tablet regimen to treat the disease and the first medicines to prevent infection with the HIV virus. Our scientists are continuing to pursue new kinds of treatment, such as long-acting antivirals, and the ultimate goal is a cure.

At Gilead, we recognize that advancing scientific discovery is only one aspect of improving public health – it takes more than medicine to tackle the challenges people and communities face. We are committed to going beyond the science to address social and structural challenges. We collaborate with partners around the world to bring its medicines to an estimated 14+ million people in 140 low- and middle-income countries.

The Gilead culture and core values are reflected in everything we do. Through bold and transformative science, we’re creating possibilities that have the potential to become the next generation of life-changing medicines.

**Our Therapeutic Areas**

Virology | Oncology | Inflammation
About us: The USC School of Pharmacy is the only private pharmacy school on a major health sciences campus, which includes the Keck School of Medicine, Keck Hospital of USC and the USC Norris Comprehensive Cancer Center and is immediately adjacent to the LAC+USC Medical Center, one of the largest public hospitals in the country. Ranked by U.S. News and World Report as a top ten pharmacy school nationwide and #1 among private schools, the USC School of Pharmacy is recognized for its century-old reputation for innovation in pharmaceutical education, clinical practice, and research. With a history of “firsts” that includes the nation’s first Pharm.D. program (1950), first clinical clerkship program (1968), first Ph.D. in pharmaceutical economics (1990), and first professional doctorate in regulatory science (2008), the school holds an essential leadership role in the safe, efficient, and optimal use of medication therapy that can save lives and improve the human condition.

William C. Gong is Associate Professor of Clinical Pharmacy and Director of Fellowship Programs at the University of Southern California School of Pharmacy. Dr. Gong received his Pharm.D. from the University of Southern California and completed his Residency in Clinical Pharmacy at the LAC+USC Medical Center. He is a primary care pharmacy practitioner committed to the education of students for careers in clinical practice and the pharmaceutical industry. He oversees over 30 fellows and has developed partnerships with industry to sponsor fellowship programs including AbbVie Inc, Aerie Pharmaceuticals, Gilead Sciences, GoVise Technologies, Kite Pharma, MannKind Corp, and Neurocrine Biosciences.

Current Fellow Profiles:

**Lena Tieu, PharmD**  
Global Medical Strategic Operations, Medical Information Fellow 2022-2023  
University of the Pacific (UOP) Class of 2022

The Global Medical Information Fellowship provides fellows the opportunity to become subject matter experts in unique therapeutic areas and develop critical skills to navigate the pharmaceutical industry. As a fellow, I feel empowered to voice my thoughts and contribute my ideas to the team. With the support and guidance of my mentors, I have been able to tailor this program to my goals and interests to design a valuable learning experience. Gilead has created an environment that fosters both professional and personal growth, and I am grateful to be surrounded by individuals that share the common goal of striving to provide accurate and scientifically balanced information for our customers.

**Hiral Patel, PharmD**  
Global Medical Strategic Operations, Medical Information Fellow 2022-2023  
University of Southern California (USC) Class of 2022

The Gilead Medical Information Fellowship gives me the training and opportunity to develop my interests in Medical Information and HIV treatment into a career. Since the beginning, my mentors and colleagues have been wholly devoted to my professional growth, ensuring that I continue to develop and refine skills that will be embedded in me throughout my career. Here, I have the structure and flexibility to pursue a custom learning experience within Medical Information and cross-functionally while making meaningful contributions to the team and exploring unique opportunities. My experience at Gilead thus far has been extremely rewarding and I look forward to continuing this journey of advancing HIV treatment therapies with my incredible team.
Current Fellow Profiles:

Camila Lis, PharmD
Global Medical Strategic Operations, Learning and Development Fellow 2022-2023
University of Southern California (USC) Class of 2022

The Gilead Medical Affairs, Learning and Development Fellowship has been a great experience so far! I have joined a team that is very supportive of my goals and strives to give me the best experience as a fellow. Not only have I been given the opportunity to network with a variety of professionals, but I have made meaningful relationships that will continue to grow. Being able to collaborate with my team to develop projects that have an impact on the training and development of incoming Medical Affairs professionals across all of Gilead’s therapeutic areas, has provided me with a competitive skillset. As I continue the fellowship, I am excited for what is in store for future events, projects, and opportunities!

Faith Awoniyi, PharmD
US Medical Affairs, HIV Prevention Fellow 2022-2023
University of Houston (UH) Class of 2022

The US HIV Prevention Strategy Fellowship at Gilead allows me to actively participate within US medical affairs and develop skills in communication, independent research, and content development. I am working with an amazing team that is passionate about HIV prevention and my growth as a person and professional within the pharmaceutical industry. With this fellowship I have been able to make an impact since day one because I am fully equipped with the tools to learn, collaborate, and educate. I also have the opportunity to choose rotations with other departments based on my interests and future goals, which was extremely important to me. This fellowship has been an amazing experience so far and I continue to look forward to what is to come.
Global Medical Strategic Operations, Medical Information Fellowships

July 1, 2023 – June 30, 2024: Two Positions Available
Location: Based at Gilead Sciences, Inc. Headquarters in Foster City, California

Vision: To strengthen patient care by connecting our customers to best-in-class medical information

Fellowship Overview: The University of Southern California, School of Pharmacy and Gilead Sciences, Inc. are proud to offer two 12-month Medical Information Fellowships designed to provide recent PharmD graduates an opportunity to learn the skills and experiences to excel in Medical Information, a key function in any Medical Affairs organization across the pharmaceutical industry. The fellowships are based at the Gilead U.S. headquarters in Foster City, California. The Fellows will be integral to the Global Medical Information teams that develop and manage Medical Information content in response to requests from healthcare professionals, patients, and their caregivers.

Fellowship Goal: To provide an opportunity for recent PharmD graduates to learn the skills necessary for a successful career in the pharmaceutical industry with an emphasis in Medical Information
Global Medical Strategic Operations, Medical Information Fellowship Activities:

Medical Information Content:
Write, update and review Medical Information content for healthcare providers and patients such as Global Response Documents (GRDs), Local Response Documents (LRDs), Patient Response Documents (PRDs), and alternative content formats (including infographics)

Medical Information Clinical Expertise:
Work with the Global Medical Information Clinicians to develop clinical expertise in specific therapeutic areas in order to draft and disseminate unbiased and scientifically balanced responses to requests for medical information escalated from Medical Information contact centers and affiliate teams

Operational Excellence:
Work with Medical Information and Operations teams across regions on process improvement initiatives, implement new technologies to support Medical Information, ensure inspection readiness, and help manage the Medical Information contact centers

Participate in Medical Review:
The fellow will have the opportunity to support development of US promotional materials, commercial learning and development materials, and Medical Information generated response documents to ensure medical accuracy, cultural appropriateness, alignment with product indication, alignment with public health guidelines and alignment with the Medical Affairs Plan of Action and strategic messaging

Cross-Functional Collaboration:
Collaborate with colleagues from other departments (Commercial, Marketing, Medical Scientists, etc.) and support Medical Affairs by providing product and drug information expertise on a wide range of initiatives including staffing the medical information booth at national scientific meetings and consulting on cross-functional activities

Compliance:
Learn and comply with regulations and guidance from various national and global regulatory agencies that govern the pharmaceutical industry

External-Department Rotations:
Based on the Fellow’s interests, there is an opportunity to participate in rotations with external departments across the Gilead organization to gain a comprehensive experience and skillset in the pharmaceutical industry
Potential departments to perform rotations with include: Regulatory Affairs (Advertising and Promotion), Field-Based Medical Sciences, Medical Affairs Research (Phase IV/Investigator Sponsored Research), etc.

USC Graduate Coursework:
Complete required graduate coursework at the University of Southern California with the opportunity to complete a Graduate Certificate Program in a variety of fields

Leadership, Teaching and Career Development:
Participate in the University of Southern California, School of Pharmacy Professional Development and Leadership Retreat, involvement in Pharma Collaboration for Transparent Medical Information (PhactMI) fellow’s community and precept Advanced Pharmacy Practice Experience (APPE) rotation students
Global Medical Strategic Operations, Medical Information Fellowship Director & Mentors:

**Prachee Satpute, PharmD**
Associate Director, Medical Information
Director, Medical Information Fellowship

**Tiffany Huang, PharmD**
Senior Manager, Medical Information
Director, Medical Information Fellowship

**Jeff Mathews, MPH, CMPP**
Executive Director, Scientific Communications Center of Excellence (COE), Medical Affairs

**Stacey Fung, PharmD**
Senior Director, Global Medical Information Lead

Fellows will also have opportunities to work with others, including senior leadership, across the Medical Information and broader Medical Affairs teams.
Global Medical Strategic Operations, Learning and Development (L&D) Fellowship

July 1, 2023 – June 30, 2024: One Position Available
Location: Based at Gilead Sciences, Inc. Headquarters in Foster City, California or Remote

Vision: Integrate our evidence into practice to improve patient outcomes

Fellowship Overview: The University of Southern California, School of Pharmacy and Gilead Sciences, Inc. are proud to offer a 12-month Global Medical Affairs Learning and Development (L&D) Fellowship Program designed to provide recent PharmD, MD and PhD graduates an opportunity to learn the skills necessary to excel in a career in the pharmaceutical industry by working within the Global Medical Affairs Learning & Development function while also supporting other teams within the Global Medical Strategic Operations (GMSO) organization.
Global Medical Strategic Operations,
Learning and Development (L&D) Activities:

Learning & Development:
Design, develop, and coordinate the delivery of Global and US Medical Affairs learning events and content, eLearning, eBooks, slide decks, and videos.

Cross-Functional Collaboration:
Collaborate with colleagues across Global Medical Strategic Operations (GMSO) and the broader Medical Affairs organization, including Medical Engagement Center of Excellence, Scientific Communications Center of Excellence, Medical Affairs operations, Medical Education & Programs, External Medical Affairs, Strategic Planning, and Medical Insights, as well as Global and Regional Therapeutic Area teams.

Operational Excellence:
Work on projects with the Global L&D team related to process improvement, development and implementation of new operational systems.

Collaboration:
Collaborate with colleagues from other departments to learn about the role of Medical Affairs in the wider organization.

Compliance:
Learn and comply with regulations and guidance from various national and global regulatory agencies that govern the pharmaceutical industry.

External-Department Rotations:
Based on the fellow’s interests, there is an opportunity to participate in rotations with external departments across the Gilead organization to gain a comprehensive experience and diverse skillset in the pharmaceutical industry.

USC Graduate Coursework:
Complete required graduate coursework at the University of Southern California with the opportunity to complete a Graduate Certificate Program in a variety of fields.

Leadership, Teaching and Career Development:
Participate in the USC School of Pharmacy Professional Development and Leadership Retreat.
Global Medical Strategic Operations, Learning and Development (L&D) Fellowship Director & Mentors:

**Sebastian Teague, MA Ed**  
Director, Medical Affairs Learning & Development  
**Director, L&D Fellowship**

**Jeff Narvid, MA Ed**  
Senior Director, Medical Affairs Learning & Development

**J.C. Andry, PharmD**  
Associate Director, Medical Affairs Learning & Development

**Nicki Pashmforoush, PharmD**  
Manager, Medical Affairs Learning & Development
US Medical Affairs, HIV Prevention Fellowship

July 1, 2023 – June 30, 2024: One Position Available
Location: US Remote; occasional travel will be needed for in-person conferences and/or team meetings

**Fellowship Overview:** The USC-Gilead Sciences HIV Prevention Medical Affairs Fellowship program will provide an opportunity for a recent PharmD graduate to learn the skills necessary to excel in a career in the pharmaceutical industry and Medical Affairs, focusing on Gilead’s HIV Prevention strategy.
US Medical Affairs, HIV Prevention Fellowship Activities:

Develop Strategic Thinking:
The fellow will help create and implement strategies to end the HIV epidemic through the HIV Prevention Plan of Action (POA), which drives Gilead’s activities across the HIV Prevention Landscape

Medical Affairs Content:
The fellow will be involved with the creation, updating, and review of Medical Affairs content such as reactive slide decks, FAQ documents, Medical Affairs advisory presentations, and Commercial Learning and Development Presentations

The fellow will be involved in the development and delivery of training materials for the sales and medical scientist’ teams

The fellow will collaborate with Global and US Medical Affairs Colleagues to cover major HIV/HIV Prevention conferences, delivering timely conference summaries to Medical Scientists and US Providers

Cross-Functional Collaboration:
The fellow will collaborate with colleagues from other departments (regulatory affairs, Clinical Research, Government Affairs) to learn about the role and value of Medical Affairs within the wider organization.

Compliance:
The fellow will learn and comply with regulations and guidance from the various national and global regulatory agencies that govern the pharmaceutical industry

Additional Activities:
Based on the fellow’s interest, there is an opportunity to participate in rotations with other departments to gain comprehensive experience and skills in the pharmaceutical industry. Examples include clinical research, regulatory affairs, and patient access

The fellow will also have the opportunity to engage in scientific discussions with Key Opinion Leaders during field rides with the Medical Scientists

USC Graduate Coursework:
Complete required graduate coursework at the University of Southern California with the opportunity to complete a Graduate Certificate Program in a variety of fields

Leadership and Career Development:
Participate in the USC School of Pharmacy Professional Development and Leadership Retreat
US Medical Affairs, HIV Prevention Fellowship Director & Mentors:

**Jonathon Anderson, PharmD, AAHIVP**
Senior Director, Medical Affairs
US HIV Prevention Strategy Lead

**Betty Chiang, MD**
Vice President, Medical Affairs
US Virology

**Julia Green, MS, APRN, AGNP-C, ACRN, AAHIVE**
Associate Director, Medical Affairs
US HIV Prevention Strategy

**Rajaun Ellis, PharmD**
Manager, Medical Affairs
US HIV Prevention Strategy
Global Medical Affairs, Oncology Fellowship

July 1, 2023 – June 30, 2024: One Position Available

Location: Based at Gilead Sciences, Inc. Headquarters in Foster City, California and/or US Remote; occasional travel will be needed for in-person conferences and team meetings

Vision: To collaborate innovatively for cancer patients by generating and providing meaningful information for oncology healthcare professionals and the broader scientific community

Fellowship Overview: The Oncology Global Medical Affairs Fellowship, offered in collaboration with the University of Southern California and Gilead Sciences, is designed for a doctoral-level graduate (PharmD, MD, or PhD) interested in pursuing a career in the pharmaceutical industry. The fellow will have extensive exposure to the Global Medical Affairs organization and gain a thorough understanding of the role of Medical Affairs within the oncology pharmaceutical industry.

Fellowship Goal: To provide an opportunity for recent doctoral graduates to learn the skills necessary for a successful career in the pharmaceutical industry with an emphasis in Oncology Medical Affairs external-sponsored research and evidence generation activities
Global Medical Affairs, Oncology Fellowship Activities:

Oncology Medical Affairs External-Sponsored Research:
Manage projects related to the review, approval, and medical oversight of the Oncology Medical Affairs collaborative studies research program

Strategic Planning:
Help with project management of the Global Medical Affairs Plan of Action (POA) and Integrated Evidence Plan (IEP), strategic workshops, and Global Medical training

Medical Affairs Launch Activities:
Support various launch activities including advisory board planning, congress preparation, publication planning, content generation for global and affiliate use

Operational Excellence:
Collaborate with the Global Medical Affairs team to work on projects regarding process improvement and implementation of new technology

Compliance:
Learn and comply with regulations and guidance from the various national and global regulatory agencies that govern the pharmaceutical industry

Collaboration:
Collaborate with colleagues from other departments to learn about the role of Global Medical Affairs in the wider organization

External-Department Rotations:
Based on the fellow’s interests, there is an opportunity to participate in rotations with external departments to gain a comprehensive experience and skills in pharmaceutical industry

Potential departments to perform a rotation with may include Affiliate Medical Affairs, Field-Based Medical Sciences, Regulatory Affairs, Marketing, etc.

USC Graduate Coursework:
Complete graduate coursework at the University of Southern California with the opportunity to complete a Graduate Certificate Program in a variety of fields

Leadership, Teaching and Career Development:
Participate in the USC School of Pharmacy Professional Development and Leadership Retreat and precept Advanced Pharmacy Practice Experience (APPE) rotation students
Global Medical Affairs, Oncology
Fellowship Director & Mentors:

Shannon Dervin, PharmD
Director, Global Medical Affairs, Oncology
Director, Global Medical Affairs Fellowship

Kelley Lu, PharmD
Senior Manager, Global Medical Affairs, Oncology

Luciana Preger, MD
Vice President, Global Medical Affairs, Oncology
Clinical Development, Oncology Fellowship

July 1, 2023 – June 30, 2025: Two Positions Available
Location: Based at Gilead Sciences Inc. Headquarters in Foster City, California

Vision: Gilead’s Oncology Clinical Development Fellowship Program aims to honor Gilead’s mission to “discover, develop, and deliver innovative therapeutics for people with life-threatening disease” by fostering a collaborative learning environment for fellows to obtain hands-on experience in the design and conduct of early and late-stage clinical trials to advance well-differentiated medicines for patients with high unmet medical need.

Fellowship Overview: The University of Southern California, School of Pharmacy and Gilead Sciences, Inc. are proud to offer two 2-year Oncology Clinical Development fellowship positions designed to provide recent doctoral graduates (PharmD, MD, DO, PhD, or equivalent doctorate degree) an opportunity to learn the skills and experiences to excel in Clinical Development within Gilead’s Clinical Development Oncology Department. The fellowships are based at the Gilead U.S. headquarters in Foster City, California and include opportunities to rotate through other departments at Gilead. The fellows will be an integral part of the Clinical Development Oncology Department and partake in core clinical development activities within individual study management teams, as well as internal and external stakeholder management.

Fellowship Goal: The fellows will develop a thorough understanding of Clinical Development and its role within the organization. The fellows will collaborate with several cross functional groups and gain an understanding of different development functions. The fellows will develop competencies that will allow them to significantly contribute to clinical trial design and execution through developing clinical protocols, informed consent, assisting in data review, supporting scientific publications, and delivering presentations, as well as providing ongoing scientific and clinical oversight to study teams.
Clinical Development, Oncology Fellowship Activities:

**Develop understanding of assigned program and molecule within the company pipeline:**
Review of literature and scientific materials, as well as contribute to the clinical development plan. Opportunity to be involved in study design and study start up activities

**Clinical Development strategy**
Potential to contribute to the clinical development plan for the assigned program or molecule

**Author and maintain key clinical documents:**
Participate in the development of study protocol (publication and amendments), informed consent forms, medical monitoring plan, and relevant publication plan

**Medical Monitoring:**
Participate and lead medical monitoring activities to ensure study conduct integrity which involve activities that include but not limited to: responding to study eligibility inquiries, perform medical data review, manage medical resolutions with investigators as needed

**Scientific communication and stakeholder management:**
Participate and present at investigator meetings, site initiation visits, KOL engagement, and study steering committee interactions

**Fellowship Recruitment:**
Participate and lead fellowship recruitment activities at regional and national conferences

**USC Graduate Coursework:**
Complete required graduate coursework at the University of Southern California with the opportunity to complete a Graduate Certificate Program in a variety of fields

**Leadership, and Career Development:**
Participate in the University of Southern California, School of Pharmacy Professional Development and Leadership Retreat.
Clinical Development, Oncology
Fellowship Directors & Mentors:

Maryam Afshari, PharmD
Director, Clinical Development, Oncology
Director, Oncology Clinical Development Fellowship

Danh Huynh, PharmD, RPh
Associate Director, Clinical Development, Oncology
Director, Oncology Clinical Development Fellowship

Shawn Sun, PharmD, RPh
Senior Associate Director, Clinical Development, Oncology
Director, Oncology Clinical Development Fellowship

Ann Chen, PharmD, RPh
Clinical Development Scientist, Clinical Development, Oncology

Siv Lam, PharmD, RPh
Senior Director, Clinical Development, Oncology

Hila Barak, PhD, RAC
Chief of Staff and Executive Director, Clinical Development, Oncology
Gilead Oncology Development Leadership Team Member
Patient Safety Fellowships

July 1, 2023 – June 30, 2025: Two Positions Available
Location: Based at Gilead Sciences Inc. Headquarters in Foster City, California

Vision: Gilead’s Patient Safety Fellowship Program aims to foster a collaborative learning environment for fellows to understand and be directly involved in Patient Safety’s role in drug development and commercialization to predict, mitigate, manage and communicate the risks of Gilead’s medicines.

Fellowship Overview: The University of Southern California, School of Pharmacy and Gilead Sciences, Inc. are proud to offer two 2-year Patient Safety fellowship positions to recent doctoral graduates (PharmD, MD, PhD, or equivalent doctorate degree) interested in pursuing a career in the pharmaceutical industry and Patient Safety.

Fellowship Goal: The fellows will develop a thorough understanding of Patient Safety and its role within the organization and learn skills and experiences important to excel in this group. The fellows will collaborate with cross-functional groups and learn about different development functions.
Patient Safety Fellowship Activities:

Pharmacovigilance:
Learn about US Food and Drug Administration (FDA) and European Medicines Agency (EMA) regulations related to pharmacovigilance practices including preparation of aggregate reports such as Development Safety Update Reports (DSURs) and PBRER (Periodic Benefit Risk Evaluation Reports) and development and maintenance of risk management plans (RMPs)

Conduct signal detection and evaluation activities for assigned products in collaboration with the Patient Safety Physician and Scientist as part of the continuous benefit-risk evaluation throughout the product lifecycle including contributing to safety reviews of adverse events using various data sources

Contribute to activities related to regulatory filings, New Drug Applications [NDAs], Biologics License Applications [BLAs], and responses to safety queries from regulatory agencies

Have the opportunity to work in a combination of therapeutic areas including oncology, virology, or inflammatory diseases and learn about other areas of Patient Safety including safety operations, analytics, and coding if interested

Safety in Clinical Trials:
Support the review of clinical trial documents including protocols, Investigator’s Brochures, clinical study reports, and informed consent forms

Support the review and monitoring of clinical trial safety data to define the benefit-risk profile of Gilead products at different stages of drug development

Cross-Functional Collaboration:
Collaborate with colleagues from other departments such as Regulatory Affairs, Clinical Development, Medical Affairs, Clinical Pharmacology, and Nonclinical Safety & Pathobiology to learn about how these functions interact with PS

USC Graduate Coursework:
Complete required graduate coursework at the University of Southern California with the opportunity to complete a Graduate Certificate Program in a variety of fields

Leadership and Career Development:
Participate in the USC School of Pharmacy Professional Development and Leadership Retreat
Patient Safety Fellowship Directors:

Susan Eng, PharmD
Executive Director, Patient Safety
Director, Patient Safety Fellowship

Olivia Fu, MD
Executive Director, Patient Safety
Director, Patient Safety Fellowship
Tanya Tatavets, PharmD  
Global Medical Strategic Operations, Medical Information Fellow 2021-2022  
University of California, San Diego (UCSD) Class of 2021

The Gilead Medical Information Fellowship provided me with the resources and training I needed to advance my career in the field of Medical Information. My mentors and colleagues provided a wealth of support and were dedicated to creating a unique learning experience that was customized to my goals and interests. I was given ample opportunity to make impactful changes across Medical Information and collaborate with colleagues across various functional areas. These opportunities vastly contributed to my professional and personal growth. My time as a Gilead fellow was an invaluable experience and equipped me with the tools necessary to succeed as a Medical Information specialist.

Nicki Pashmforoush, PharmD  
Global Medical Strategic Operations, Leadership and Development Fellow 2021-2022  
University of Southern California (USC) Class of 2021

As a Medical Affairs Learning and Development Fellow, I had the opportunity to expand my knowledge, develop valuable skills, and build meaningful professional relationships. I gained comprehensive experience by supporting a wide range of initiatives and collaborating with colleagues from other departments. I had the opportunity to lead projects independently, with continuous support from others that I work with. The Gilead fellowship allowed me to work alongside experienced professionals in an industry which continues to bring forward medicines in areas of unmet medical need. Most importantly, the invaluable support and guidance that I received from my preceptor and colleagues built an environment for successful growth and development.

Rajaun Ellis, PharmD  
US Medical Affairs, HIV Prevention Fellow 2021-2022  
Nova Southeastern University Class of 2021

During my HIV Prevention Medical Strategy fellowship, I developed a robust understanding of the role and value of US medical affairs within Gilead. Since day 1, I felt that I was an essential part of the team because of the warm and welcoming environment Gilead created. My preceptors and team members supported my interests and professional goals. I completed a four-week rotation within regulatory advertising and promotion across the HIV treatment and oncology therapeutic areas. This rotation allowed me to understand better the laws, regulations, and codes that govern prescription drug advertising and promotion in the US. It is an exciting time to join our team as Gilead continues to lead HIV prevention efforts in many ways, including evaluating the use of a long-acting injectable agent for PrEP. I feel honored to be part of a team committed to developing innovative methods to help end the HIV epidemic for everyone, everywhere.
The Application

Application Requirements:
To be admitted to the USC Pharmaceutical Industry Fellowship Programs, the candidate must have completed a PharmD, MD, PhD or equivalent doctorate degree from an accredited college or university within five years of initial appointment.

Webinar:
Link to Zoom Webinar: USC-Gilead Fellowship Info Session Webinar
- November 8, 2022, at 4:30 - 6:00 PM PST

Application Process:
Please apply to the following three (3) application platforms:

USC Postdoctoral Fellowship Application
The USC Postdoctoral Fellowship Application Portal can be accessed online at: https://provost.sma.usc.edu/prog/fellowship/
- The application for the 2023-2024 cycle will be available October 1, 2022
- Final due date of all application documents must be submitted to USC by December 9th, 2022
You will be asked to submit the following:
- Email addresses of three (3) professional references
- Curriculum Vitae (CV)
- Letter of Intent (LOI)
- Official pharmacy school or graduate school transcripts may be sent electronically from the university’s registrar’s office to residentfellow@usc.edu or mailed to Pharmacy Residency & Fellowship Programs: 1985 Zonal Avenue, PSC B-15 Los Angeles, CA 90033

Gilead Qualtrics Application
Gilead Qualtrics application: https://usc.qualtrics.com/jfe/form/SV_6KYUCGamluZO2uG
- Upload a copy of your CV and LOI
- If you are applying to more than one position, please send in an application for each position
- Submit responses by November 30, 2022
The Application (continued)

ASHP PPS Application (for select fellowships)

Additionally, please submit your CV and LOI through American Society of Health-System Pharmacists’ (ASHP) Personal Placement Service (PPS) to request a first-round interview.

- PPS portal opens September 21st
- Application materials are due to PPS by November 30, 2022
- Final interviews will be conducted at the ASHP Midyear Clinical Meeting, which will take place the week of December 4 - 6, 2022

Select Fellowships that will be conducting in-person interviews at ASHP Midyear:

- Global Medical Strategic Operations, Medical Information Fellowships
- Global Medical Affairs, Oncology Fellowship
- Clinical Development, Oncology Fellowships
- Patient Safety, Fellowships

For all applications:

When submitting documents, please submit as a PDF file and use the following naming conventions:

- Last name_First name_CV_Position Name.pdf
- Last name_First name_LOI_Position Name.pdf

Interview Process:

- Final interviews may be conducted at the ASHP Midyear Clinical Meeting, virtually, or on-site at the Gilead campus
For location and times, or any additional information on the program, please contact:
